# 1 Om rapporten

Trivselsmålingen består af 40 spørgsmål for elever i 4.-9. klasse og 20 spørgsmål for elever i 0.-3. klasse.

Denne rapport viser resultater for Isbryderen, Skoler uden kommunetilknytning.

## 1.1 Læsning af figurer

Figurerne i kapitel 3 og 4 viser den procentvise fordeling af elevernes svar på hvert spørgsmål i trivselsmålingen.

'Antal svar' kan variere fra figur til figur, idet svarkategorien 'Jeg ønsker ikke at svare' ikke indgår i figuren. Af hensyn til den enkelte elevs anonymitet vises der ikke svarfordelinger for enkeltspørgsmål, hvis mindre end tre elever har svaret på spørgsmålet.

Figuren i eksemplet herunder viser, at:

432 elever har besvaret spørgsmålet 'Er du glad for din skole?'

Af disse 432 har:

0 % svaret 'Aldrig'

5 % svaret 'Sjældent'

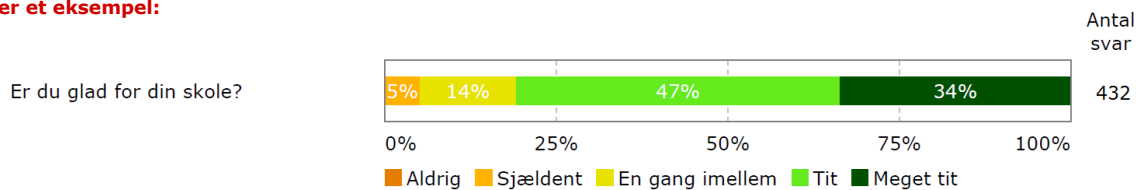

14 % svaret 'En gang imellem'

47 % svaret 'Tit'

34 % svaret 'Meget tit'

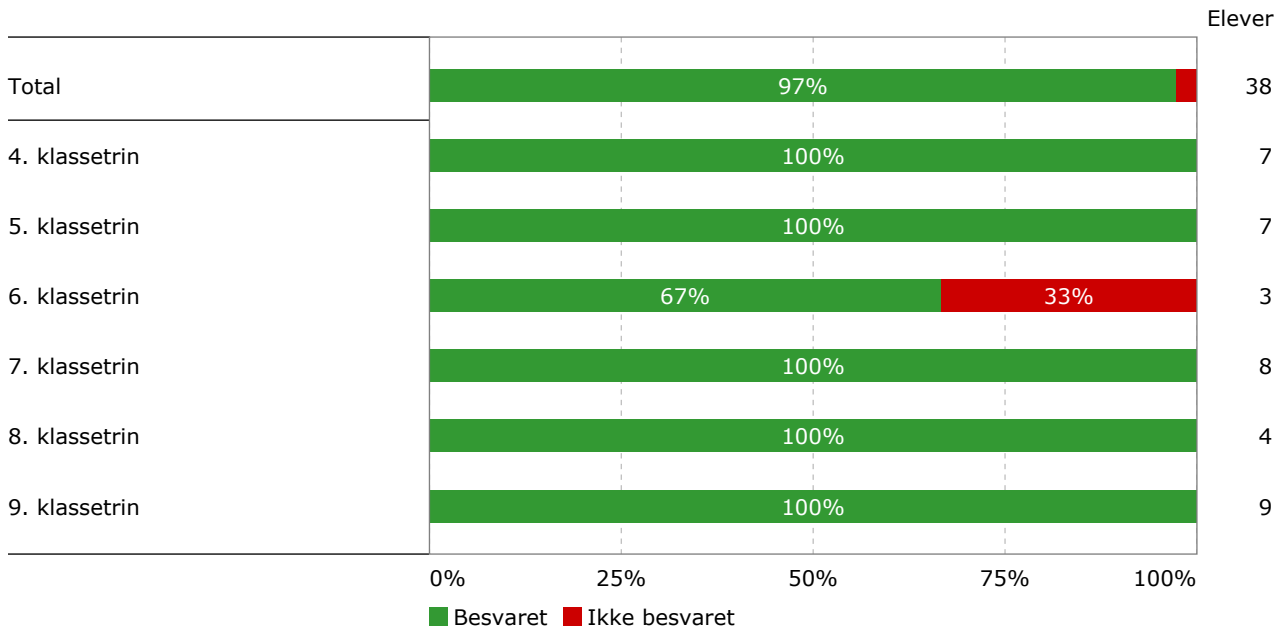

Dette giver samlet 100 %

**Dette er et eksempel:**

## 2 Svaroverblik

Dette kapitel viser i figuren nedenunder, hvor stor en andel af eleverne i skolen, som har besvaret henholdsvis ikke besvaret spørgeskemaet.

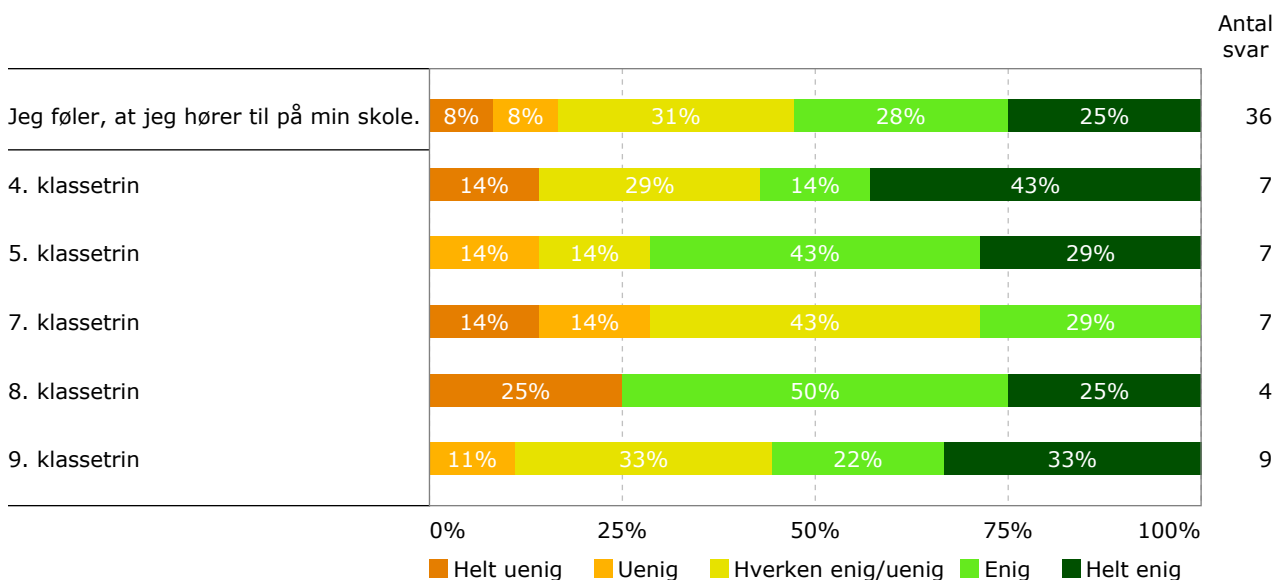

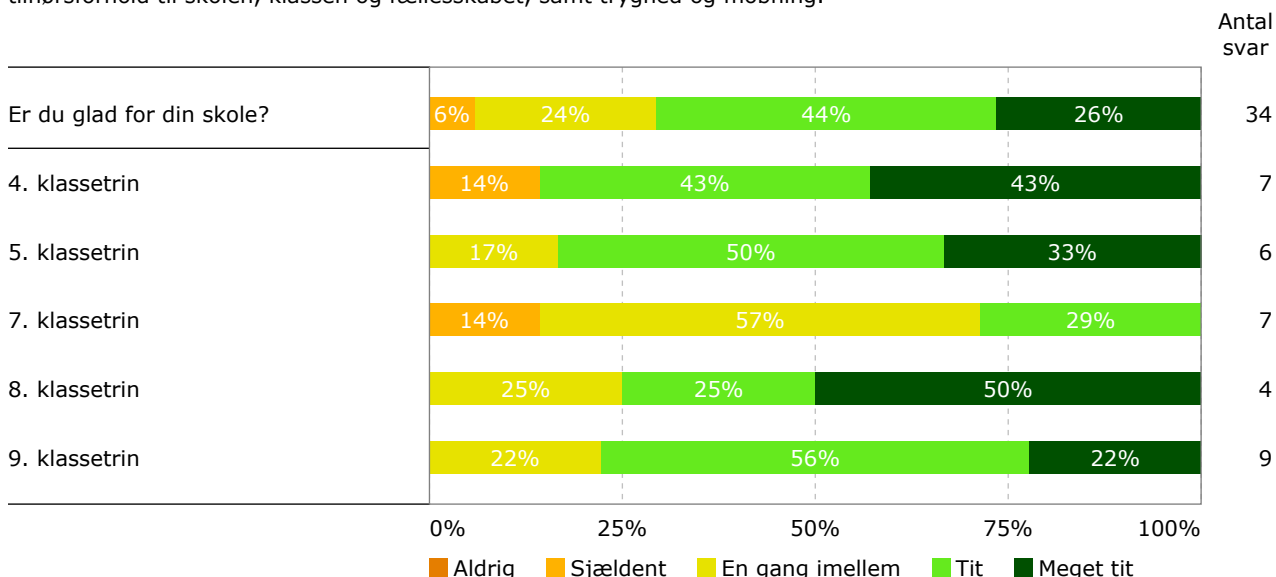

\*Elev, der blev frmeldt målingen, indgår ikke.
